

The Institute for Family Health

Beginning October 20th, 2018, **MyChart** will have a brand-new look!

You will still be able to do all the things you do now, such as scheduling an appointment or sending a message to your provider. **Beginning October 20th, you can also:**

 <p>Complete check-in steps before your appointment, such as confirming your personal information, signing documents, and paying a copay.</p>	 <p>Make payments to your account balance with a credit card or bank account.</p>
 <p>View, download, and print documents you have on file with the new Document Center page.</p>	 <p>Temporarily share part of your health record with a provider outside of the Institute for Family Health</p>
 <p>If you also get care at another organization with MyChart, you can see info from both the Institute for Family Health and the other organization in the same place.</p>	 <p>View a snapshot of your after visit summary, just like the paper copy we give you after an appointment.</p>
 <p>Choose how you prefer to be notified of upcoming appointments, new test results, and other events with the new Notifications page.</p>	 <p>Upload an advance directive that tells your care team what kind of decisions you would make in case you're ever unable to answer important questions later.</p>

Log in to MyChart on October 20th to check it out!

If you don't have a MyChart account, ask our staff to help you sign up.
